## Advice on Credential Recognition and Job Training

Use your professional qualifications on the German Labor market.

Since 2005, the Network „Integration through Qualification (IQ)“ has been working to improve employment opportunities for people with a migration background. In the 2015-2018 phase, the network has an additional focus on compensatory measures in the context of the Recognition Act. An objective of central importance is that occupational qualifications acquired outside Germany lead to employment appropriate to one’s level of education.

The programme is funded by the Federal Ministry for Labour and Social Affairs (BMAS) and the European Social Fund (ESF). Strategic partners in implementing the programme are the Federal Ministry for Education and Research (BMBF) and the Federal Employment Agency (BA).
